OBJECTIVE

Find a small company with a big product that makes me want to jump out of bed each day to make it even better.

RELEVANT EXPERIENCE

Jr. Web Developer Intern

December 2019 -- June 2020

ScaleFactor, Austin, TX

- Debugged help desk software with minimal input from team leaders.
- Extended support ticketing functionality to use round robin distribution pattern.
- Improved customer experience by writing and maintaining help documentation.

PORTFOLIO PROJECTS

Asana Task Repeater *Full stack JS*

Typescript | React | Express | PostgreSQL | Jest

Auto-duplicates Asana tasks based on user defined rules. Front End Github Back End Github

- Password-less sign in via 3rd party service. OAuth flow handled manually.
- MVC-like architecture. File/folder organization based on functionality.
- Cron operations update back end user data. Test coverage on key functions.
- Production ready for a public, multi-user environment. Planned free roll-out after some extra non-YAGNI features are added.

Personal Site *The aesthetics project*

React | Framer Motion | Styled Components

seandz.com

Github repo

- State based backgrounds. Transparency overlays for readability.
- (Mostly) subtle, UX enhancing animations.
- Techy font selection and color palette to suit target audience.

Foreign Sentence CourseBuilder *OOP mandatory*

Node.js | Google Cloud

- Polymorphic design (duck typing onto subclass instances). Github repo
- Fairly complex object interaction: translation, audio build out, compression.

Prospector *Job hunting on semi-auto*

React | Express | APIs (Hubspot, AWS, Mailgun)

A quick contact adder and emailer app.

Front End Github Back End Github

- CRM insert & emailing via hotkey press. Data auto-parsed from single textarea field.
